WWM International

Water and Waste Management is an eclectic team of Scientists, Engineers, Consultants, and Academicians from USA, Australia, Canada, Europe, Singapore and India with expertise in water and waste management. With an average experience of about 30 years, the Group provides a global platform for Government Agencies, Industry, and the Public to share the knowledge and expertise for sustainable solutions in water and waste management for sustainable development.

WWM Focus

WWM is one of the Premier International Conference and Expo in water and waste management sector catering the needs of water treatment and waste management. It has been successfully contributing to the advancements and innovation opportunities for various stakeholders in water and waste management.

It assists in providing policy directions by:

- Acting as International consortium for knowledge and technology solutions for promoting wastewater treatment and best practices for waste management.
- Creating interdisciplinary and multi specialty approaches to provide a platform for networking of both experienced and early career business leaders, to foster innovations and entrepreneurship in water and waste sectors.

WWM International Conference and Expo Editions

WWM Series of International Conferences and Expo launched outstanding scientific programs by establishing collaborations among elite business professionals, policy makers, researchers, academicians, and young entrepreneurs. Panelists and Speakers made a profound Impact in advancing WWM vision during the International events held in 2019, 2020 & 2021.

During WWM-2019, more than 50 eminent speakers from Government Agencies, corporations, and industries from various parts of the globe shared their knowledge across 8 plenary sessions. In WWM 2020 more than 100 experts participated in 8 tracks on water and waste management. As a part of EXPO, a gamut of industries, academia and research centers showcased and exchanged knowledge and product technologies.

In 2021, WWM International Conference and Expo was conducted Virtually in dual time zone mode (USA and India). As on date, it is a first of its kind event that enabled participants to access to 3D Virtual reality experience in sharing their knowledge and business opportunities. About 8 themes were discussed on WWM and presented 200+ eminent speakers.

WWM International Conference and Expo, Thailand 2022

The WWM International Conference and Expo, Thailand, is being launched in collaboration with Government of Thailand.
